

Visit St. Pete/Clearwater

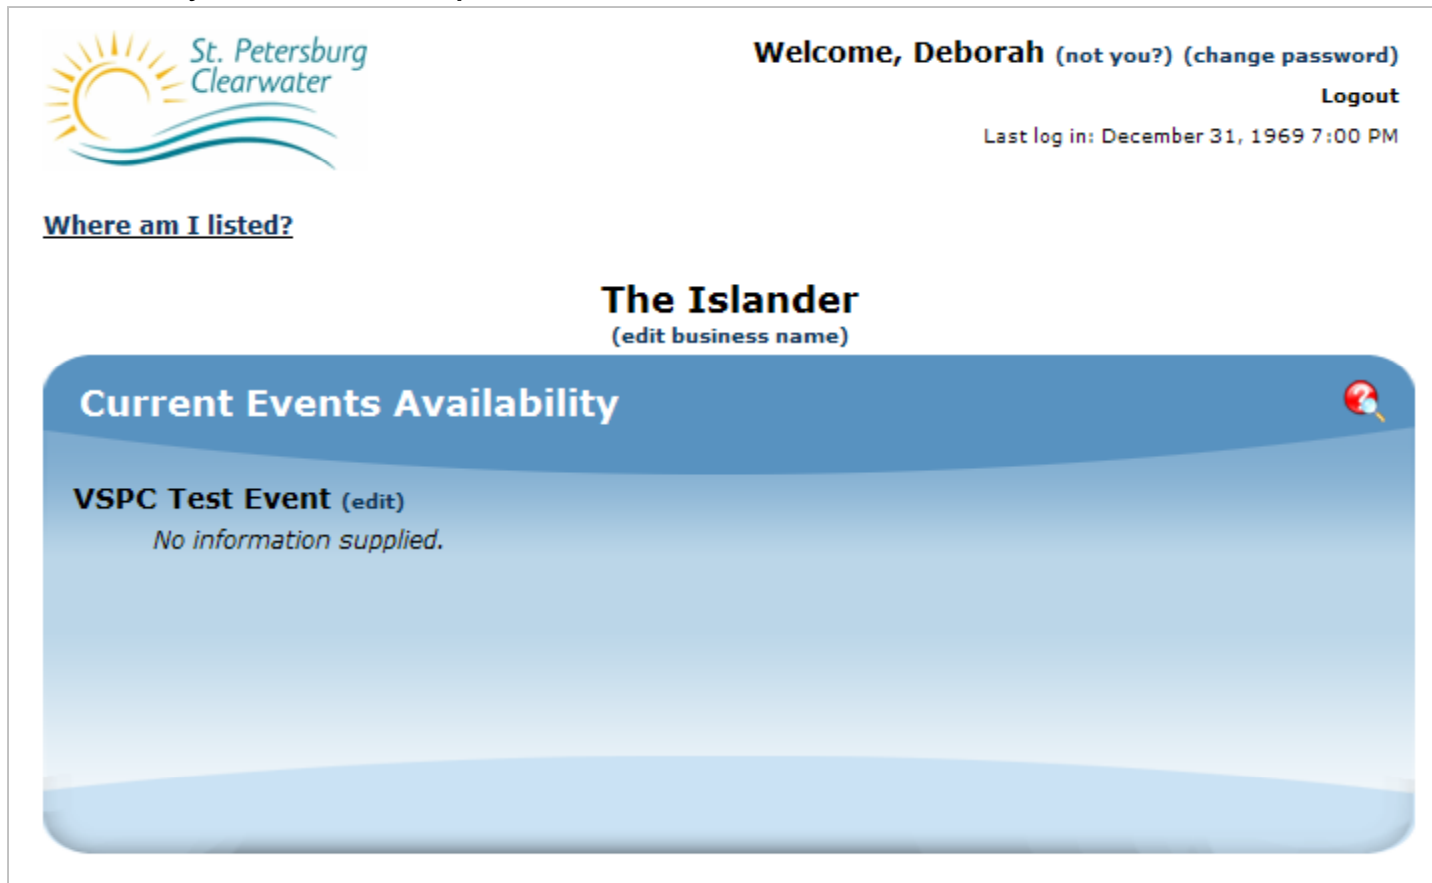

Storm Accommodations Availability
Instructions For Online Updates

Overview

- During named storms, Visit St. Pete/Clearwater keeps an updated list of local room availability by hotel property on VisitStPeteClearwater.com.
- Beginning with the 2009 Hurricane Season, hotel partners will have the capability to update their room availability online, via a secure Internet portal.
- To update their hotel room availability during a named storm, accommodations partners can go to <http://data.visitstpeteclearwater.com>
- Accommodation partners will need to get a login id and password from Visit St. Pete/Clearwater before they are able to access the above page. This is the same login id and password used for updating website listings online. Requests for login information can be directed to Dick Roesler, dick@visitspc.com.
- Once a storm has been named, updates to room availability can be made at any time by industry partners.
- Following are instructions on updating hotel room availability.

Initial View

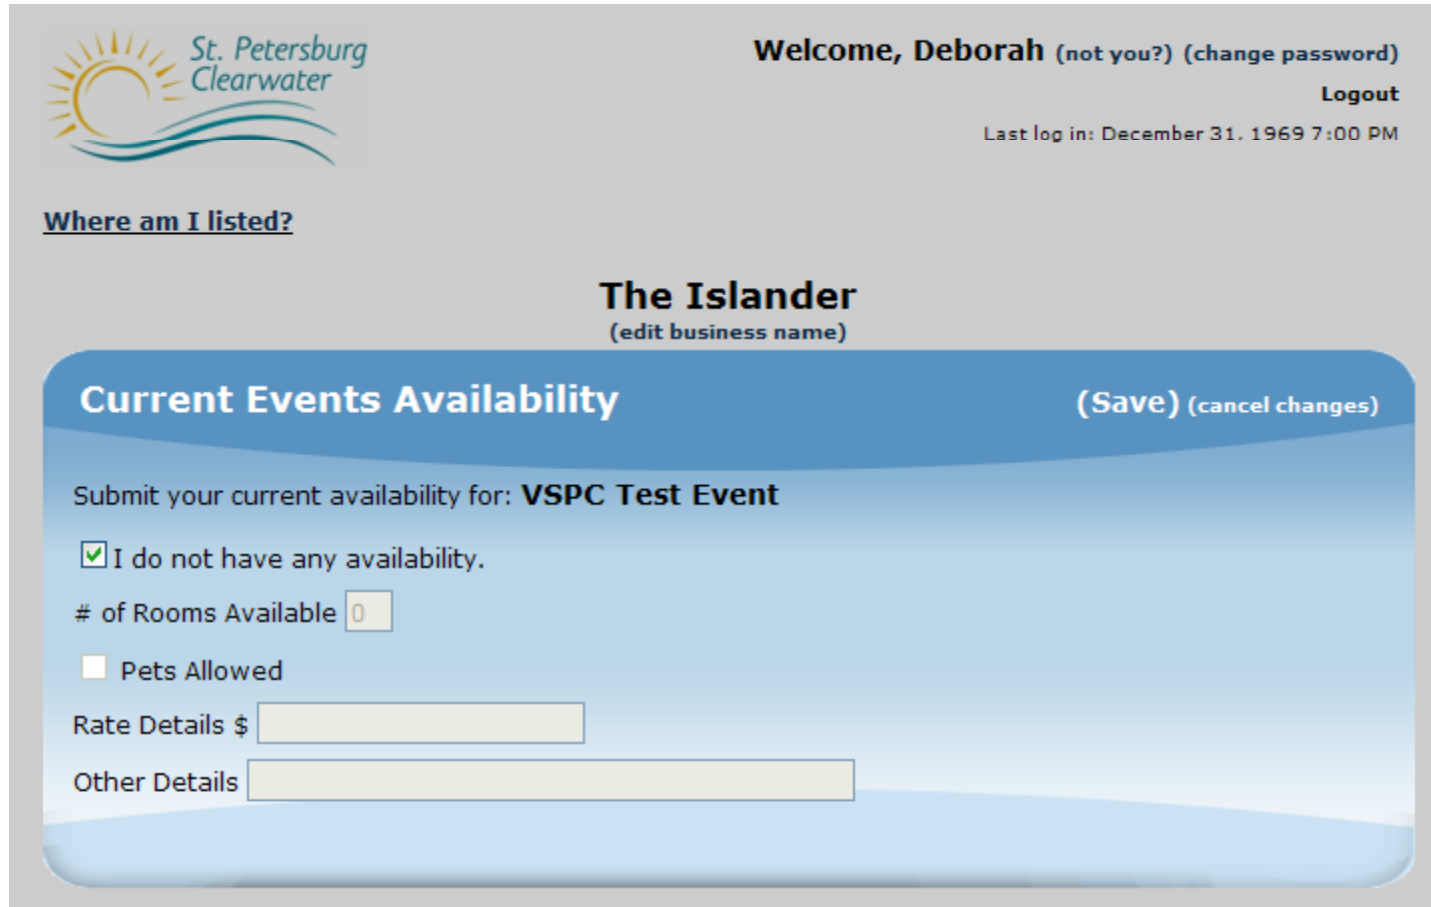

After logging on to <http://data.visitstpeteclearwater.com> accommodation partners will see the following screen. The name of the property will be listed where “The Islander” is currently shown. The words “VSPC Test Event” will be replaced with the name of the current storm. In order to add room availability information, please click on “Edit” next to the storm name.

The screenshot shows the initial view of the accommodation partner dashboard. At the top left is the logo for St. Petersburg Clearwater, featuring a sun and waves. To the right of the logo, the text reads "Welcome, Deborah (not you?) (change password)". Below this, there is a "Logout" link and a timestamp: "Last log in: December 31, 1969 7:00 PM". Below the logo, there is a link: "Where am I listed?". In the center, the property name "The Islander" is displayed, with "(edit business name)" below it. Below the property name is a blue header for "Current Events Availability" with a red question mark icon. Underneath, there is a section for "VSPC Test Event (edit)" with the text "No information supplied." below it.

Editing Information

The following page is displayed once the “edit” button is clicked on the previous page. Partners can enter detail as listed and then press the (Save) link located on the top right corner of the dialog box. Data can be updated at any time during a named storm event. Once completed, partners should click on the “Save” button on the top right of the dialog box and then click on the “Logout” link on the top right corner of the page.

 **St. Petersburg Clearwater**

Welcome, **Deborah** (not you?) (change password)
